

*To our elected officials,*

*We are at a critical time in our country's future. Climate change, due primarily to the burning of fossil fuels, threatens our environment and the quality of life for all Canadians.*

*The North Main Rail Line runs from London Ontario through St. Mary's, Stratford, Kitchener, Waterloo, Guelph, Georgetown, Brampton and into Toronto. The Kitchener, Waterloo area is one of the fastest growing areas in Canada. Studies have been done to show that increased passenger rail service on this line is a viable option. People would have an environmentally friendly mode of transportation, rather than driving their cars.*

*Please provide funding to VIA Rail Canada to take advantage of these opportunities along the North Main Rail Line.*
